

As part of our eco ACTION PLAN for FOOD and THE ENVIRONMENT the eco-committee set up a competition open to all pupils about where familiar, everyday foods come from, such as baked beans, potatoes, tinned tomatoes. The photos show the winners and runners up being presented with their GROW YOUR OWN FOOD prizes by the senior eco-committee members. Thank you to primary 6 for the research for the answers! Thanks also to Jack Davis, Treasurer and Theo Irvine, Secretary for all their hard work on the eco-committee this year. We wish them well at the Anderson High School.
